General arrangements should be made known (and confirmed in writing) to the Head of Transmission Services at an early planning stage. These details should include the communication arrangements, the location and confirmation of the lines booking information. It should also be made clear which route is to be the main and which is to be the reserve circuit. For special live events the Producer and/or Technical Supervisor will be required to attend a technical production meeting at S4C to discuss details with the Broadcast and Presentation Units and any other relevant party.

Once the relevant sections of this form have been completed it should be e-mailed to the following recipients:-
